

September, 2020

In today's COVID environment it is more important than ever that we have a care for the health and safety of the Culver City Christian School community – our families, students, staff and teachers. We must respect ourselves and each other by obeying – if not cheerfully at least without complaint – the guidelines issued for preventing the spread of the virus.

CCCS will endeavor to do everything we can to maintain a healthy environment by cleaning frequently, staying in small self-contained groups, and limiting contact with those outside our group and following all the other protocols recommended by child care licensing and health department agencies as closely as humanly possible. We are asking our families to partner with us and do all that they can to assist us by following public health guidelines.

By signing this statement, you pledge to respect the health and safety of yourself, your family, the CCCS community and those around you by:

- Wearing a face covering whenever in public
- Frequently washing hands for 20 seconds with soap and water
- Avoiding crowds and maintaining social distancing
- Staying home (keeping my child home) when sick to prevent infecting others
- Responding promptly to pick up your child if CCCS calls they are showing signs of illness
- Notifying the school office of travel (domestic or international) by me or my immediate family members to ensure the appropriate CDC and Health Department guidelines are followed
- Notifying the school office of any exposure or potential exposure to anyone who may be a carrier of infectious disease
